## Serious Accident.

Last Thursday morning a serious accident occurred at the Morrisville Foundry, in which C. B. Greene, one of the firm and general Superintendent of the business received a compound fracture of the leg about five inches above the ankle. The company is building a walk to connect the machine shop with the foundry building and timbers were up and planks laid across the timbers and everything was ready to put the trusses and braces into place C. B. Greene, Carl Gile, Gardner Shipley and C. K. Kidder were on the frame, when one of the large timbers, 6x8 inches, broke, dropping the quartette about 15 feet to the ground. Mr. Greene landed with one leg across a timber and another large piece fell across his left leg with the above result.

Dr. James W. Robbins, the family physician, was called at once and Mr. Greene was taken to his home, where with the assistance of Dr. C. C. Rublee, the fracture was reduced. Mr. Greene has the sympathy of all in this streak of hard luck, coming as it does just as he is beginning business for himself as one of the firm of the Morrisville Foundry Company. Mr. Green is doing as well as can be expected. The other three men were more or less bruised and Mr. Kidder received painful bruises on his face.

A lady advertised for a hired girl and says "don't advertise any more. I've got a girl; had several applications." So it goes. ## A Wise Merchant.

A merchant over at Rolla states that his advertising last year cost him 45 cents for every \$100 worth of goods sold. He uses a half page for his business announcements each week and says that as long as the people read newspapers he will advertise. There's a man possessed of a good head. Just as soon as merchants begin to look upon advertising as a branch of their business which requires as much care as any other part of it, then will advertising commence to pay. Honesty, force, originality and persistency in advertising make it a paying venture.—Bottineau (N. D.) Courier.
